The Pittsburgh Gazette.

FRIDAY, JUNE 22, 1866.

On Saturday last the Republicans of Washington county nominated A. W. Taylor for State Senate, he having been previously nominated in Beaver; John Ewing and J. R. Day for Assembly; J. C. Chambers and John Farrer for Associate Judges; John L. Gow, Jr., for Prothonotary; M. L. McCracken for Recorder; George Buchanan for Register; and William Kidd for Clerk of the Court. If A. W. Acheson will accept the nomination for President Judge, he was unanimously declared to be the candidate.

Resolutions were passed in favor of Gen. Geary, the new Constitutional Amendment, and a Free Railroad Law.

It is no longer fashionable "at Court" to speak of the late troubles in this country as a Rebellion. Mr. Secretary SEWARD, in his official announcement of the death of Gen. Cass, speaks of his "exalted patriotism at *a recent period of political disorder*." The Baltimore *American* expects next to hear the most terrible and groundless rebellion on record spoken of as "an unfortunate family quarrel," or, as Mrs. Partington would express it, "a slight constipation of our internal relations."

In the 21st District of this State are three Republican candidates for Congress—in Westmoreland, Mr. John Covode; in Indiana, Mr. A. Wilson Taylor; and in Fayette, Dr. Smith Fuller. Fortunately, no ill-temper has been engendered between these gentlemen or their friends. From the look, we incline to the belief that Mr. Covode will have the track. Mr. John L. Dawson retains the seat in Congress for this district, Dr. Smith Fuller failing to make out a case.

The Boston *Pilot*, the principal organ of the Irish Catholics in the United States, has heretofore been comparatively silent on the Fenian question. It now says that the Canadian expedition shows the bitter enmity of the Irish against England. It warns the Canadians against shooting the Fenian prisoners, and assures them that if they put them to death, a work of retaliation will be commenced that will cause the stoutest heart to quail.

When Captain Rauch, of Reading, was in this city attending the Soldiers' State Convention, he was looked upon as "shaky." It seems probable the discipline to which he was subjected did him good. His paper is now doing service in behalf of General Geary.

Hon. George V. Lawrence, representative in Congress from the twenty-fourth (Penna.) district, has been unanimously nominated for re-election by the Republicans of the four counties of Lawrence, Beaver, Greene and Washington, of which it is composed.

The Democrats of Juniata county have nominated Dr. S. B. Crawford for Congress, Jerome Hetrick for Assembly, Samuel Watt and Thos. I. Milliken for Associate Judges; Geo. Reynolds for Prothonotary, and John S. Sahm for District Attorney.

The Reading *Gazette*, the democratic organ of Berks county, stoutly claims that Mr. Clymer is "the Johnson candidate for Governor." Whether the claim is true or false it will not help Mr. Clymer five hundred votes in the State.

An industrious and respectable laboring man was murdered in Chicago on Tuesday, to obtain twelve dollars he had collected for his work.

Gov. Morton opened the canvass on last Tuesday evening, by a speech at Indianapolis, of remarkable cogency and power.

LETTER FROM ANAWAN.

An Ancient Document—The First Record of Westmoreland County in the Days of King George the Third—A Trip Through the Country—Guffy's Station—Republican Primary Election of Dan. Rice Coming—Greensburg his first Show Town—Local and Neighborhood Gossip.

GREENSBURG, PA., June 20th, 1866.

This place was organized as a borough in 1799, and we find on the records, in Mr. Guffey's office, recorded the first ordinance dated the 27th day of February, A. D., 1775, eleven years previous to the establishment of your journal, the 15th year of the reign of George the Third. It is a commission to Arthur St. Clair, appointing him Register of the county. It commences with the seal, then follows the greeting:

"George the Third, by the Grace of God, of Great Britain, France and Ireland, King—defender of the Faith, and so forth." and concludes as follows: "In testimony whereof, we have caused the Great Seal of our Province to be hereunto affixed. *Witness*—Richard Penn, Esquire, (by virtue of a commission from Thomas Penn and John Penn, Esquires, true and absolute proprietors of our said Province, and with our Royal approbation,) Lieutenant-Governor and Commander-in-Chief of the Province aforesaid, and the counties of New Castle, Kent and Sussex, on Delaware, at Philadelphia, the twenty-seventh day of February, in the year of our Lord, one thousand seven hundred and seventy-three, and in the thirtieth year of our reign.

"RICHARD PENN."

Yesterday we took a turn through the country, bringing up at "Guffy's Station," on the Pennsylvania Central Railroad, and at the "Grimes Well House" we were entertained in regular "oriental style" by the incorrigible "Alf" Guffy. This house is a very pleasant country retreat, situated on the bank of the river, and kept in elegant style by Alf. Guffy. The section of the country between here and there is a fine agricultural region, and the crops here are far in advance of those in other parts of the county.

The return Judges of the Republican primary election held here yesterday, and nominated Hon. John Covode for Congress, and Thomas Gallagher for the Legislature.

Senator Cowan came home on Saturday, and returned to Washington on Monday evening.

Mr. J. E. Warner, agent for Dan Rice's circus, was here on Friday last, and billed the show for that place on the 28th inst. Greensburg was Dan's first show town. About twenty-six years ago he started out with a "learned pig," and gave his first exhibition.

Preparations for the celebration of the 4th are going on briskly in different parts of the county. At Latrobe a grand procession, a decklance, another at Salem Cross Roads, a celebration at Pleasant Unity, and a Catholic picnic here.

Three horses were stolen in Washington county on last Friday night.

A company has been organized here, and the stock nearly all taken, for the building of a new hotel where the Kettering House now stands. The whole thing will be under the management of Mr. Henry Kettering, and as he is an old hotel keeper, it may be reasonably supposed he will put up a house commensurate with the demands of the traveling public.

FROM KENTUCKY.

Case of a Guerrilla Continued—Apprehended Release by Negroes.

LOUISVILLE, June 21.—The case of Benjamin, late of Harper's band, was continued till next term of Court. Twelve hundred dollars bail was given. Nothing has been heard of Harper since he released Col. Franklin and Patillion from Bowling Green jail on the 15th. The gang is supposed to be in the vicinity of Hartsville, Tenn.

Bell's case, for shooting Owens, has not been called up. Owens is recovering rapidly.

BOWLING GREEN, June 21.—It is apprehended that the negroes will attempt to rescue a negro sentenced to be hung on the 13th of July, at Franklin. Precautionary measures have been taken by the citizens to prevent such a result.

The Canadian Confederation Scheme.

TORONTO, C. W., June 21.—The Legislature of New Brunswick, it is expected, will adopt the confederation scheme. Delegates from Canada, New Brunswick, Nova Scotia and Newfoundland will probably leave for England at the end of the present month. The English Parliament will, it is expected, pass the necessary act at the present session in order to enable the confederation of the present session to be completed in August.

Novel and Useful
At the instance of a friend we called at No. 4 St. Clair street to examine specimens there exhibited of building blocks, made by a new process, which is patented. The material of these blocks consists chiefly of sand and lime, with an admixture of silica. The machinery used for their manufacture subjects them to an enormous pressure, excluding the moisture and leaving the block or artificial stone ready and fit for immediate use. Special tests, by saturating with water, freezing and thawing, also of actual use in the walls of a house for eight years, demonstrate their indestructibility, and hence their superiority to any of the stone found near the city, as a material for building. The inspection of these blocks will, in our judgment, at once commend them as a most admirable and much needed material for all sorts of buildings, public or private. They can be made of any desirable color or tint, and of any shape, adapted for mouldings, facings and diversified tracery. It is a special merit of this new material, as we are informed, that it can be furnished at less cost than stone or brick. We advise our master builders, architects and citizens to examine these blocks, at No. 4 St. Clair street.

Cheering Facts for the Billions.
Every day demonstrates more clearly that Liver Complaint, in all its distressing forms, can be controlled or cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the pertinacious, remedial and restorative operation of HOSTETTER'S STOMACH BITTERS. That genial corrective *conquers the organ to do its duty*. It *must* secrete regularly and healthfully under the influence of the Bitters. Their action brings it back from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disappears; if there is side-ache or back-ache, it ceases; if the skin and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired, it is restored; in brief, whatever the symptoms of the complaint may be, and whatever the phase it has assumed, *a cure is certain*. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to liver complaint, it must be prevented throughout life by the regular use, in small quantities, of this palatable antidote. These are proven facts, and should be seriously pondered—or, rather, they should be promptly acted upon—by all persons of bilious habit.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

—In Buffalo, a railroad conductor has just been fined $500 for ejecting a man from a car because he refused to give up his seat to a woman. In the decision the Court held that women are entitled legally to no more privileges in public conveyances than men, and that when the latter pay for seats they have a perfect right to occupy them so long as they conduct themselves properly.

—The Pottsville *Miners' Journal* learns from a reliable source that the stock of the Manufacturers' and Consumers' Railroad, leading from Philadelphia through Schuylkill county to Sunbury, has been taken by heavy capitalists, and arrangements are now making to place corps of engineers on the route to locate the road.

—The President has granted a pardon to Wade Keyes, of Montgomery, Alabama, who was a member of the rebel Cabinet, having been attorney general of the short-lived Confederacy. His pardon was requested and recommended by Attorney General Speed and Admiral Lee, of the United States navy.

FROM WASHINGTON.

Thanks to the Crew of a United States Vessel for Assistance in Extinguishing a Fire—The Vanderbilt and Monadnock at Acapulco—Performance of the Latter—Bones of Diseased Cattle—Internal Revenue Receipts—Death of the Hon. James Humphreys—Fenian Colonel Roberts in Congress.

WASHINGTON, June 21.—Commander Warren, of the United States steamer Bienville, writes to the Navy Department from Aspinwall on the 11th instant, giving the particulars of the great fire at Mayoguez, already noticed, and enclosing copies of a letter from the authorities of the place, returning thanks for the services of the crew of the Bienville in extinguishing the fire.

Commodore Rogers communicates the information that the United States steamer Vanderbilt had arrived at Acapulco on the 30th of May, with the Monadnock, after a passage of eight days and a-half from Panama. The town, he says, is occupied by the French with a single vessel, the Lucifer of eight guns lying at anchor before it. The shores of the Bay are so beleaguered by the Liberals that the Vanderbilt, which grows within a hundred shot of the town, cannot safely be approached. The coal agent desired the protection of the American flag in giving coal to the Monadnock. We learn, the Commodore says, probably be detained here for this purpose three or four days, after which I shall proceed to San Francisco, stopping at Magnolia Bay to transfer coal from the Vanderbilt to the Monadnock. The average number of knots run by the latter vessel has been six and a half per hour. The greatest distance run by her in one day was one hundred and fifty-seven miles, and the least one hundred and forty-seven.

The United States Consular agent at Beyrout, Syria, forwards to the Department of State a letter from the United States Consul at Lisbon, informing him that merchants in that city are collecting, throughout the country, bones of animals to send to Europe and other countries, and in consideration of the fact that the cattle disease raged for some time in districts thereabout, the Consul thinks it more than probable that among these collections the bones of infected cattle are also gathered, and in sending them to Europe consequently carry disease to the country to which they are exported. A copy of the above was sent to Surgeon General Barnes. He expressed the opinion that importation of bones of cattle which have died with the Rinderpest or other infections are calculated to spread the diseases, and should be prohibited. This communication will be sent to the House Committee on Commerce for consideration, as there is now no law to prevent the importation of bones.

The receipts from Internal Revenue sources solely for this fiscal year, to this date, amount to $300,000,000.

It is probable that the death of the Hon. James Humphrey, of New York, will be formally announced in Congress to-morrow.

Colonel Roberts, President of the Fenian Brotherhood, was on the House to-day, in conversation with General Banks and other prominent members of that body.

NEW YORK, June 21.—Judge Cordoza, in the Court of Common Pleas this morning, declared the Excise law unconstitutional. The question will be carried up to the Court of Appeals.

Another case of cholera was reported to the Board of Health this morning—Mrs. Malone, living at 101 East Broadway.

Specials to the evening papers say that reports just received by General Howard to represent the freedmen's affairs in Florida in a very flattering condition. They have two churches, and the schools are all well attended.

The Committee on Ways and Means have agreed on a bill completely reorganizing the Treasury Department.

NEW YORK, June 21.—A morning paper says in view of the impending conflict on the Continent of Europe, it has been suggested that our naval force in that quarter should be increased, in order to render it thoroughly competent to protect American interests, especially in Europe and in the provinces. On this suggestion, the Navy Department has assigned the gunboat Swatara, now ready for sea at the Washington Navy Yard, that squadron. Several other vessels are also to be despatched as soon as they can be placed in readiness. Among the vessels spoken of as likely to be attached to the European squadron are the new frigates Franklin, Guerriere and Chattanooga, with the new sloops-of-war Neshanic and Dakota.

A Panama letter relates a singular accident which occurred in the Bay of Valparaiso on the 20th of May. A Peruvian officer had constructed a torpedo submarine boat, made several successful experiments in sinking and raising his boat in four fathoms of water, and, in company with a party of friends on board with him. He proceeded some distance out in the harbor and there again sunk his boat, with himself and friends on board. No anxiety was felt about the expedition for some time, Black having stated that he could remain under water easily for three hours. Unfortunately, before going down, Black was so confident in the success of his experiment that he would not allow any of the openings to be attached to the boat, and thus no search could be made for them with any certainty of success. Every effort, however, to find them was made by divers and others, but all in vain. Two trades were had until the 8th, when divers discovered the boat. Black's son, fourteen years of age, was one of the party.

THE NATIONAL DEBT.

Letter from Chief Justice Chase—He Disapproves of the Present Conduct of Business.

NEW YORK, June 20.—The Colored legislative reporter publishes the following extract from a recent letter from Chief Justice Chase to Governor Smyth:

"I was particularly pleased by your protest against the new scheme of perpetual and untaxed debt. You may really imagine that after all my labors, and with so great success to establish the principle of taxation for the public debt by making it payable, the six per cent. at any time after five and within twenty years, and the three per cent. at any time after ten and within forty years. It was very painful to me to see a proposition for a loan not refundable at all till after thirty years. I can intelligently argue against the bill, declaring a debt which creditors may take up after five or ten years, for I can see the country may save more in interest than it will bear in taxes, but I cannot imagine an honest argument to a debt for thirty years, and exempted from bearing burdens to which other property may be subjected. I got money received, and therefore asked leave to offer it.

Resolved, That the Committee on Appropriations be directed to investigate and report to the House the expediency of repealing section No. 124, and also to consider the expediency of a resolution of the existing law in reference to mileage more equal and more in accordance with the actual cost to and from the national capital at the present time.

The resolution was adopted.

Mr. Payne presented a report in favor of awarding the seat for the twenty-first Congressional district of Pennsylvania to Mr. Myers, the sitting member, and gave notice he would call it up next week.

Mississippi River Contract—Bills Giving Bounties to Colored Soldiers and to Facilitate Postal Connections Approved by the President.

WASHINGTON, June 21.—Among the recent contracts is one for service from Vicksburg to New Orleans. In service valuable and safe steamboats twenty-five intermediate offices on this route will be supplied regularly five times a week.

The President has approved the bill giving bounties to colored soldiers and pension bounties and allowances to their heirs. He has also approved the bill to facilitate commercial, postal and military communication among the several States. This bill authorizes railroad connections so as to form continuous lines.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, June 21st, 1866.

SENATE.

Mr. Sherman from the Committee on Agriculture, reported adversely on the bill to establish a national depository in Germany.

Mr. Wade offered a resolution which was adopted, instructing the Committee on public buildings and grounds, to inquire into the expediency of purchasing the land between Maryland avenue and Pennsylvania avenue, east of the Capitol, for a national park, in which to erect a presidential mansion.

At the expiration of the morning hour the tax bill was taken up.

The reading of the tax bill was then resumed from the point touched at the time of adjournment yesterday. The following amendment in relation to gas companies was agreed to: And all companies whose price is fixed by law are authorized to add the tax herein imposed to the price per 1,00 feet on gas sold, and all companies who have heretofore contracted to furnish gas to municipalities and other corperrtions, are hereby authorized to add the tax to such contract.

The Committee recommended the following amendments: "Reapers, mowers, threshing-machines and separators, corn-shellers, woolen mills, and machinery for the manufacture of sugar, syrup and molasses, made from sorgium, beet, and corn, exclusively adapted to be driven by horse power, 3 per cent. ad valorem.

On adoption of the above, Mr. Grimes demanded the yeas and nays.

Mr. Kirkwood called attention to the fact that reapers, mowers and threshing machines were exempt by the House bill.

Mr. Fessenden said the farming interest was favored in this bill to a greater extent than any other interest. The farmers themselves made no complaints, but certain gentlemen had undertaken to complain for them. The instruments now proposed to be taxed were the tools of mechanics. Gentlemen says, probably be detained here for this purpose three or four days, after which I shall proceed to San Francisco, stopping at Magnolia Bay to transfer coal from the Vanderbilt to the Monadnock. Speech of "Head Center" Stephens—The Full Text—All Irishmen Throwing Obstacles in the way of Irish Liberty Denounced as Traitors.

NEW YORK, June 21.—The speech made by Stephens, the Fenian Head Center, at Washington, on Tuesday evening, was very meagre, as transmitted by telegraph. The full text contained the following: "The import of my words is that all Irishmen, be they whom they may, who are throwing obstacles in the direct way to our country's liberation are traitors, and are this hour abhorred and despised, execrated by men in Ireland, and they dare not for their lives place a sail over which the green flag should not in triumph be waving. The men who now propose to sell the Irish vote of this country to political demagogues are traitors, and I here denounce them by name, Roberts and General Sweeny, and the whole set called the Senate. It is time to speak in plain language, and I will do it now, heretofore and forever, by voice and through the means of the press. I say they are traitors to the cause of Ireland, and let them be looked upon not only by Irishmen, but all Americans who sympathise with struggling freemen.

"Again I thank you, my countrymen, for the compliment you have paid in listening patiently. Again, I ask your to heed my admonition to be distrustful of the Senate party, the heroes of Campo Bello and Canada, and I ma, soon have to add Mexico."

Arrival Extraordinary—Heister Clymer in Town.

Passing through the Diamond, last evening, about ten o'clock, our attention was attracted to what appeared to be an unusual commotion at John Roth's lager beer hall. With "an item on the brain" we entered and secured one, be the same great or small. The front room was filled, the rear one jammed, and thither we bent our steps, assuming the position of spectators. To be the point of attraction. The first familiar face was that of our well-known townsman, Mr. James Irvin, always "vigilant" in anything he undertakes, and on this occasion master of ceremonies. Forthwith we were introduced to Hon. Heister Clymer, of Berks Co., the Democratic candidate for Governor, in opposition to the Union standard-bearer, General John W. Geary. "This is ——," said friend Irvin. "Ah, a good Berks county name," said Mr. Clymer, a most genial appearing gentleman, accompanying his remark with an emphatic grasp of the hand indicative of muscle proportionate with his well developed frame. said the host, "Mr. Clymer, dat young man has been a Black Republican, but dank de Lord he ish right dis time."

We confess the omission to correct this mistake. Said Mr. Clymer, "I consider this page modified her to quit, stating that he could no longer do without his rent. Served with the desperation of misery, the tender wife started out in quest of her husband and met him near the Postoffice on Fifth street. He smilingly came forward and saluted the woman, who, instead of returning his Pauline attack, fell upon the head and shoulders with an umbrella she had with her, causing him to cry out with pain. The interposition of the by-standers put an end to the scene, and allowed Arnold an opportunity to escape. Mrs. Arnold, who is suffering from fractured arm, went to Alderman Donaldson's office yesterday and complained of her husband for abandonment.

Morgan on the Organ.

St. Paul's cathedral contained last evening one of the most fashionable audiences of the season. It was the occasion of the farewell grand concert of Mr. George W. Morgan, of New York, the famous organist, who has been sojourning here for a number of days. We can find no adjectives too strong to convey any idea of our opinion regarding the musical abilities of Mr. Morgan. He is immense. From his clever manipulation at times the lofty walls of St. Paul's shook in reverberance to the thundering harmony belched forth from the musical monster. Demons armed with bolts of fury, seemed to dance upon the ivory keys and hold high carnival in revelry. Again shrill notes penetrated the air and sent ecstatic thrills coursing the blood, starting every nerve into quickened action. Then wild impassioned strains bore us away from cares and exalted the heart to high and holy things. Then again, sweet, angel utterance of soft cadences broke upon the ear, and the soul mounted to heaven and stood with its God. Glorious, thrilling possession to the Most High. Indeed, Mr. Morgan possesses musical abilities such as no other organist in the world can boast. With hands and feet he brings more music out of an unwieldy instrument than mortal can imagine possible. His concert last evening was in every respect a success, and we feel he has afforded an opportunity of welcoming him again ere many months roll away.

Whipped by his Wife—A Story of Misery.

Another case of base treachery on the part of a husband to his wife came to our knowledge yesterday, while at the office of Alderman Donaldson. A short time since, our informant stated, a man named William Arnold married a prepossessing widow, who was then the maternal parent of three children. After marriage the wife went to live as a servant in a private family, leaving her children in the care of a relative, in order to assist her husband in procuring means to furnish a home for them. About three weeks since he furnished a garret apartment on First street, to which he brought his wife, making her mistress of the meagre establishment. From that time he never gave her a cent for support, but spent his time drinking about town with his vile companions. At length, on Wednesday, the landlord who owned the house in which Mrs. Arnold had lodged

High School Exhibition.

The High School commencement exhibition came off last evening in Masonic Hall, which was densely packed with one of the most fashionable audiences that has greeted our gaze for a decade. The stage, which was tastefully arranged, was occupied by the graduating class, nine in number, four of whom were girls, neatly arrayed in robes of snowy whiteness, giving us a bird's eye view of the bevy of beauty and intelligence while journeying to St. Mares, ladened as they were with floral tributes from friends and admirers. The exercises, which were of a highly interesting character, were interspersed with music by the Great Western String Band.

"Life Messages," an essay by Miss Mary Eva Duffy, a school girl, both in composition and delivery, "Song Sleeping Heroes," an oration by Samuel Barkley, and "American Genius," by Miss Emma Bell, were specially fine. "Patriotism," by Maggie H. Sleeth, "Freedom," by Alexander McCandless, "Small Talk," by Margaret Williams, "Effect of Reform," by Rachel McClintock, and "The Life of the Universe," by Fanny Rutledge, and "The Resources of our Country" and "Valedictory Address," by Miss Ella Wilson, were fully up to the standard, and far in advance of productions we have listened to on similar occasions. At the conclusion of the programme, the graduating class were presented with their diplomas, by the Principal.

Made One Flesh.

Annie Shaw yesterday appeared before Justice Barker, and made oath against William Monroe for affiliation. The accused was arrested and brought before the magistrate, to whom he stated that while he believed himself innocent of the charge he was willing to sacrifice a goodly portion of his pride in order to have the matter settled. The Justice, on the strength of this assertion, entered into negotiations with Annie, who answered firmly that nothing save the restoration of her betrayer's honor, revenge, and either one or the other she was determined on having. William at first demurred to the proposition, alleging that a young man had been rather too intimate with the prosecutrix of late, the nature of which intimacy he would have to be informed of before entering the

Finally William was forced to believe that "trifles light as air are to the jealous confirmations strong as holy writ," and that his Dulcina was only in appearance false, whereupon he announced his intention of making her his own. Accordingly they joined that a neighboring minister had completed the job.

He has established an office at the corner of Sixth and Grant streets. Dr. Donnelly is a graduate of one of the best of medical colleges, and is thoroughly acquainted with all branches of the profession. We cheerfully commend him to our readers knowing his ability as a physician and surgeon, and his reputation as an honorable and accommodating gentleman.

The Manchester Strawberry Festival was a grand success, and, by urgent request, the ladies have been induced to repeat it this evening. Strawberries, ice-cream, and refreshments will be served out bountifully. The orchard of Jonathan Gallaher is a beautiful place, and will be well lighted. By patronizing the Festival tonight you will help on a good enterprise, and will be delighted. Entrance to the grove from Chartiers street. Something to Brag About.—We received yesterday from the well known small fruit grower, J. Byron Foster, Jr., of West Newton, a quart box of the finest and most luscious strawberries. Each berry was the size of an English walnut, it taking but a few to fill a quart box. Mr. Foster is prepared to exhibit the ber

PITTSBURGH AND CONNELLSVILLE RAILROAD CASE.

The suit to determine the legality of the law repealing the charter of the Pittsburgh and Connellsville Railroad Company came on for hearing, yesterday, before the Supreme Court at Williamsport. In consequence of the sickness of Judge Greer, Judge McCandless hears the cause. Messrs. Johnston, Latrobe and Spiers appeared for the railroad company, and Messrs. Black and Lowry for the other side. No progress was made in the hearing.

TRIMMING.

Now and then we encounter a Republican of Radical opinions who believes in the efficacy of Trimming. So long as he discourses of principles in the abstract he starts at the root of the matter and works logically to natural and just conclusions. But when it comes to reducing ideas to the concrete in actual measures of government, he is ready to accept, without a struggle, almost any abatements that may be proposed.

In the important matters at issue between the President and Congress, that man will frankly avow his sympathies and convictions all run in unison with the majorities in the two Houses; but, then, he thinks it would be wiser to yield acquiescence in the Policy of the President, for the sake of concord, and with a view to holding the Republican party together. Such is not our conception.

The Republican party was called into existence by an earnest and searching discussion of the elementary principles that form the foundation of all just Government by the People. It crystalized around the central idea of Liberty defended by Law. The condition of its continuance is trueness to that idea. It can be held together on no other terms, and if it could be made to cohere under different circumstances it would be shorn of usefulness and become a cumberer of the ground.

The leading Republican journals, by their Radicalism, saved the party organization intact and undiminished in power. If they had yielded six months ago to the influences that went out from the Presidential Mansion, the party would have literally disintegrated and gone to pieces. At the elections next fall the Democrats would have experienced no trouble in securing a working majority in the House of Representatives, and would certainly have gained a number of Senators, including one from Pennsylvania. True, the Radical journals have lost departmental patronage, and their Conservative competitors have reaped the advantage, such as it is. No matter; when the Radicals, impelled by a sense of duty, elected to stand by their principles, they knew what losses they would necessarily be made to sustain. These losses they accepted cheerfully, because the sacrifice was necessary to preserve the principles to the defense of which they were pledged.

Others took a different view. They said in so many words, "We ARE sold; yet we see no other way but to follow the President." They did follow him until they were met by a current of influences, emanating from the people, more potent than that wielded by the President. Hence the remarkable fact that on the final passage of the last Joint Resolutions to Amend the Constitution every member of the House, chosen by Republican constituents, was constrained to act, not with the Executive, but with the Republican party. This was at once the triumph and the vindication of Radicalism. The party was found a unit, and its principles placed in the ascendant.

If the Radical newspapers in Pennsylvania had not taken the risk of prompt and decided action, the election of General GEARY, which is now certain, would have been an impossibility; six of the districts, represented in the present Congress by Republicans, would in the next be represented by Democrats; and Mr. EDGAR COWAN would either be re-chosen to the United States Senate or be succeeded by Mr. G. W. WOODWARD or Mr. WILLIAM B. REED. The fact that the party stands to-day on an impregnable basis is not due to the Conservatives, for they did their utmost to demoralize it, and make it an easy prey to the spoilers, but to the Radicals, who stood by the flag, and refused to follow, where following was treachery.

WHEN the call was issued for a Soldiers' State Convention, to be held in this city, the democratic leaders endeavored to take the movement under their patronage, for the purpose of bettering Mr. CLYMER'S chances of election. In various counties they sought, by crafty appliances, to pack delegations favorable to their scheme. By noisy exultation they gave the impression to the uninitiated that, speaking after the manner of Mr. SEWARD, "everything was lovely." But when the Convention came to act, the fact was disclosed that the soldiers stood solidly by the principles and measures for which they battled.

The CLYMER men are not willing to give up so. Hence they have resolved that "a *real* Soldiers' Convention" shall be held. To this end they are to have a preliminary meeting at Harrisburg on the 28th instant.

QUITE a number of Republican Governors object to Governor Curtin's plan for calling special sessions of the Legislatures to pass on the Constitutional Amendment. They hold it is not possible to secure the ratification prior to the first of January next, and that by waiting the regular meetings of the Legislatures the people will have an opportunity, in the respective States, of pronouncing judgment on the proposition. The moral effect of approval by the constituencies is worth much.

THE Democrats of Berks county announce that they have invited "the President and the Union members of his Cabinet" to attend their mass meeting on the 18th of July.

THE Nashville, Tennessee, *Press*, speaking of the new Constitutional Amendment, says:

"We shall not regret its defeat very deeply, for while we acquiesce in it, it appears to us *to fall short of the requirements and necessities of the Union minority of the South.*"

It goes on to state—

"The Union party of the country has from the beginning been not only willing but eager to be magnanimous to those rebels who were themselves magnanimous. But the reconstructed newspapers of the South, ever since the assassination of Abraham Lincoln, have been scattering firebrands of hate among the people against the Union men of the South and the party at the North which put down the rebellion."

And it concludes:

"If there was any general exhibition of charity and magnanimity by the partisans of the late rebellion toward their Union neighbors, who they affectionately style "traitors to the South," and "allies of the Yankee invaders," if they showed any disposition to extend to their adversaries the same generosity which they demand for themselves; if they would concede that the Southern man who was for the Federal Government was in all respects as honorable, honest, patriotic and respectable as the Southern man who was for the Confederacy; if they would cheerfully grant that the Southern man who fought for the Union performed his duty, then the rights and interests of Union people would be perfectly secure under the local governments of the late insurrectionary States. But the reverse of all this is undeniably the fact, throughout those States. To have been a Union man there is political ostracism, civil outlawry and social disgrace. We do not therefore believe that the proposed amendment will secure peace in the South."

So far as we can judge this represents the feeling of all real Union men in the Southern States. Instead of regarding the proposed amendment as harsh towards the rebels, they regard it as inadequate to their own protection.

A FENIAN mass meeting was held at St. Louis on the 18th inst. Capt. DUNN was among the speakers. The main point he made was this:

"The United States government has sold the Fenian arms for this invasion, and they had now taken them away. They had now their money, arms and ammunition, and he would say that they were robbers in the face of all honest men on the earth. Tell it to Mr. Seward, Secretary of State in Washington. Tell it to Mr. President Johnson, in the White House at Washington. Tell it wherever you may be; and I defy them to give me the lie, that they have sold us ammunition and arms, and knowing for what purpose they were going to be used. And tell them that they are robbers in the face of all honest men."

He was followed by Judge DAILEY, who said:

"The Congress of the United States, he believed, were in sympathy with this cause, and their feelings were that of the American citizens, and he believed that they would repudiate this transaction of conffiscating property merely on an alleged violation of the neutrality laws, and they would repudiate the spy system."

THE Galveston (Texas) *Bulletin* wisely says:

"We could name a dozen journals in Texas which are dead weights for the President to carry. They are the representatives of Texan opinion, and as such do incalculable mischief. While the Southern press is fossilized to the dead issues of the past, we can hope for no reconstruction on terms advantageous to the South. While the newspapers professing to represent public sentiment, abound in all that is abusive of the nation and disloyal to the government; how can it be otherwise?"

This is the plain truth. Every loyal man who reads many of the Southern journals is repelled and put on his guard by the violence of their language and the boldness of their pretensions.

POLITICAL ITEMS.

—The President is said to be much pleased at the defeat of Mr. Grinnell, of Iowa, for a re-nomination to Congress.

—It is stated that the President has sent to the Senate the nomination of Governor Holden, of North Carolina, to be minister to San Salvador.

—The prospects are that a qualified Negro Suffrage Bill for the District of Columbia will be passed before the close of the session, and signed by the President.

—Judge Lowry has been nominated for Congress by the Democrats of the Tenth District of Indiana. Hon. W. H. Harrington has received the Democratic nomination in the Third Indiana District.

—There is said to be a programme among certain Wisconsin politicians to make Gen. C. C. Washburne, United States Senator to succeed Mr. Howe, as a compromise candidate between Howe and Randall.

—There is talk of nominating Brentano, publisher of the Chicago *Zeitung*, against John Wentworth, for Congress, next fall. Brentano is a decided Radical, and musters considerable strength, exclusively among the Germans.

—A letter from Zanesville gives the following information: "Muskingum county approves of the course of Hon. Columbus Delano in Congress, and is in favor of his re-nomination. Follett, of Licking county, will undoubtedly be the Democratic candidate."

—There is a serious intention evinced among the Republicans of the Fort Wayne district, Indiana, to give their Representative, Hon. Joseph D. Defrees, a leave of absence from Congress for a few years. He is accused of being weak in the knees on reconstruction, and of leaning towards the Johnsonites.

—The Republican Convention of the Fifth Congressional District of Iowa convened Monday, and after seventy-seven unsuccessful ballotings, was obliged to adjourn until yesterday. On the seventy-ninth ballot General Dodge was nominated as the Union candidate for Congress, he receiving 76 votes to 64 for Mr. Kasson. The nomination was finally made unanimous.

HORRIBLE RETRIBUTION.—The Knoxville *Commercial* says:

"We have just been shown a private letter from Floyd county, Georgia, to one of our citizens, in which one of the most dastardly crimes is made known we ever chronicled. Three ladies were returning home from a visit to a neighbor, when a negro came upon them in a secluded out-of-the-way place, and attempted to detain them all. Two of them succeeded in getting away from him; the other one he took into the woods, and tied her, and kept her there two days without food, her friends finding her at the end of that time. The negro was caught, and the lady was asked what punishment she desired to have inflicted on this demon. She replied she wanted his arms cut off and then wished him skinned alive. The sentence was executed. The negro lived about ten minutes after the operation.

THE CONTRAST.—It is not generally known as it should be, that our gallant candidate for Governor, General Geary, was engaged in *nearly sixty battles*, during the Mexican war and the late rebellion, and that besides having *his son shot down by his side*, he was wounded on three different occasions, and has at this day *an open wound* in his breast.

Now look at the *other* picture. We have, it is true, as his competitor, a man who occupied a prominent position during the nation's struggle for existence, but where, and how, and on which side?

With such an issue and such champions, who can doubt the result?—*Reading Jour.*

—The Buffalo *Express* of Friday announces the arrival during the previous forty-eight hours of no less than one hundred and sixty-one grain vessels, whose cargoes will foot up a total of two million six hundred and nine thousand two hundred and fifty-two bushels—the greatest accumulation of grain that ever lay at one time within any harbor on the globe.

—The Harrisburg *Telegraph* significantly asks: "If the Fenian leaders are worthy of prompt arrest and trial, what should be done with the far more guilty leaders in the attempt to destroy this Government?"

GENERAL NEWS.

—The citizens of Troy have just subscribed $8,760 to pay the debt on their elegant new orphan asylum.

—It is proposed to erect a broad and substantial levee, completely girdling the city of New Orleans. This is a stupendous enterprise.

—The President has appointed Breckenridge Speed, son of Attorney General Speed, a cadet at the West Point Military Academy.

—A foreign letter writer speaks of Tennyson as "holding England's lyre." He must have seen the poet reading the London *Times*.

—The greenbacks retired from circulation between April 1st and June 1st of this year amounted to twenty-one and a quarter millions.

—Two spans of the Tennessee river bridge, at Clarksville, are completed, and the work is vigorously pressed forward, promising early completion.

—Anson Burlingame has purchased a tract of land near San Mateo of 1,100 acres, and proposes to become a resident of California as soon as his mission to China is ended.

—The corn and wheat crops are reported as doing pretty well in South Alabama, but owing to the scarcity of subsistence, the farmers are generally feeding their stock on wheat in the sheaf.

—The estate of the late Ralph Huntington, of Boston, will foot up nearly $1,100,000. The principal heir is his only daughter, the childless widow of John W. James, of that city.

—A theatre is to be established permanently in Reading by New York parties. The hall of the new building attached to the Keystone House has been leased for this purpose.

—Judge Oldham, of Texas, formerly a rebel Senator, is in Cordova, writing a history of the "Confederate Struggle," and, in the meantime, is supporting himself by photographing.

—Mr. S. B. O'Meagher, the Paris correspondent of the London *Times*, gets a larger salary than Secretary Seward, besides a furnished house in one of the best quarters in Paris.

—Miss Jennie Brown and Miss Sallie Hart, of Louisville, were found suffocated in the vault of a privy on Monday. The floor of the closet had fallen through, precipitating them into the vault.

—Dr. Griggs, of Detroit, who was recently arrested on the charge of smuggling, has just had his trial in Cleveland. The jury were absent from the room but fifteen minutes, and returned with a verdict of acquittal.

—The safe in the office of Messrs. E. & G. Brooks, Birdsboro, Berks county, was blown open on Saturday morning about two o'clock, by a party of burglars, and the sum of about two hundred dollars taken out of it.

—John Augustine, a respectable citizen of Carondolet, Mo., was murdered at Columbia, Ill., on Sunday. The murderer, Lane, was taken from the guard having him in charge, by the exasperated people, and summarily hung.

—Farmers in the Northern portion of Ohio suffered heavily from the storm of Sunday and Monday, in loss of stock. An estimate made in Huron county fixes the number of sheep lost within a circle of ten miles at ten thousand.

—Henry Lee, nephew of Robert E., has been arrested by the military authorities at Richmond for getting drunk and inciting a riot. He was released, after a confinement of three days, on parole, to report in person whenever called upon.

—From a report made to Congress, it appears that government has provided 6,075 artificial limbs to soldiers; 2,134 arms, 3,784 legs, 44 hands, 9 feet and 104 other appliances; twenty three different manufactures of artificial limbs supplied the government, and the cost was $357,728.

COE'S DYSPEPSIA CURE is prepared by the originator of the justly celebrated Coe's Cough Balsam. Mr. Coe has never prepared a medicinal article for public use and given it one but what has stood the strongest tests, and has always borne the palm of victory over every disease it has been certified to cure. Will you who are suffering from dyspepsia, indigestion, nausea, sick headache, cholera morbus, debility, and general debility of the whole system, try but a single bottle. We will never urge you again if we fail in this case. Our own knowledge of its merits the united testimony of all who have ever tried it, the encomiums of hundreds of our own neighbors, your duty to yourself, and the best of reasons, as certain as unbiddable, all urgently, persistently urge you to try just one bottle. Should you say in any respect it misrepresents concerning its wonderful virtues are not found to be true—if you do not say that the operation of the medicine is mild, speedy, and perfectly satisfactory—we will renounce our profession as caterers to the public health, and retire from the field, admitting that we are incompetent to compound a medicinal preparation which would be entitled to your confidence.

Quarter Sessions Court.

Judges Sterrett and Brown presiding.

THURSDAY, June 21.—In the case of John Chess, indicted for assault and battery with intent to ravish Mrs. Ann Lewis, of Temperanceville, the jury returned a verdict of not guilty, defendant to pay the costs.

Patrick Ward was indicted for an assault and battery, on oath of his wife, Ellen Ward. In this case it appeared that the parties were married on three weeks acquaintance, the husband being persuaded to marry by a third party, a female acquaintance of the wife. It appeared from the evidence that the husband had used extraordinary violence upon his wife, he chastising her for some real or imaginary offence. The jury convicted, and Ward was sentenced to pay a fine of ten dollars and to undergo an imprisonment of twenty days in the county jail.

John P. Warker and George Steinagel, of the Four h Ward, Allegheny, indicted for selling liquor on sunday, were convicted. Sentence deferred.

The surety case between James George (defendant) and Patrick Clare (prosecutor) was heard, the Court deferring judgment.

Patrick Ward, complained of by his wife for surety of the peace, was required to pay the costs and give bond in $300 to keep the peace for one year.

Fred. Smith, tavern keeper on Smithfield street, near Water, was tried for selling liquor to minors and acquitted, but required to pay the costs.

John H. Joell plead *nolle contendere* to an indictment for assault and battery on oath of Margaret Roell, his wife, and was sentenced to pay a fine of five dollars and the costs, and to give bond in the sum of $200 to keep the peace for one year. The parties live in the vicinity of Birmingham.

William Stone was tried and found guilty of the larceny of a pair of pantaloons from Geo. Wimer, of the steamboat Kenton, residing in New Castle.

John Coyle, constable of South Pittsburgh, was arraigned on a charge of aggravated assault and battery, Michael Schweitzer appearing as prosecutor. The defendant undertook to serve a warrant, issued by Justice Barker, upon Schweitzer, who has refused, after due notice, to pay his bounty and borough tax. This warrant authorized Coyle to levy upon the household effects of Schweitzer, and if none could be found to seize the body. Schweitzer resisted, and the officer used his mace on the resistant's head. Out of this grew the prosecution. The jury found a verdict of guilty of assault and battery, and recommended defendant to the mercy of the court.

An Atrocious Scoundrel.

Last Wednesday a man made his appearance in Titusville and intimated that he was the brother-in-law of John Doyle who was murdered on the 16th inst. He appeared to be deeply affected by the calamity which had befallen his relative, and visited Justice Mowbray for the purpose of seeing the evidence taken before him. He also visited Howe's barrel factory, where Doyle had been foreman, and held a secret conference with Chief of Police Witherop, for the purpose of ferreting out the perpetrator of the atrocious crime, and told him that he would go and see Mr. Daniel Kerr and meet the Chief in the morning, and proceed to work the case up. He then went to Mr. kerr's residence and as the relative of the deceased took possession of his effects, among which was $16 in money that was handed over to the deceased when cleared out, leaving the funeral expenses unpaid and the affairs of the deceased to take care of themselves. He gave his name as Hamm. It is suspected that he is more nearly related to the family of Bummers than to the Doyle family. Doyle's father has been written upon the subject to ascertain whether this Hamm had any authority from him. Mr. Daniel Kerr took a great deal of trouble in the affair and probably he will have to pay the funeral expenses unless a subscription is raised for that purpose.

A German Editor Cowhided by a German Lawyer.

The *German Democrat*, the only Teutonic organ of democracy in this county, came out yesterday in an editorial denouncing in strong terms one of the proprietors of the paper, Antoine Weidman, Esq., calling him a petty-fogging lawyer, unworthy the respect or esteem of any respectable person; stating, also, that Mr. Weidman had made repeated but ineffectual attempts to have the writer removed from position as editor of the *Democrat*. Mr. Weidman was unaware of the existence of the article until about noon, when he was met by several friends who began jesting about the matter, and who soon enlightened him on the editorial alluded to. Of course Mr. A. became exceedingly wroth, and, on the impulse of the moment, procured a stout cowhide, hastened to the office of the *Democrat*, met face to face his defamer, who he instantly seized by the throat and dragging him out of the editorial chair into the middle of the apartment, proceeded to cow-hide the delinquent employee in an unmerciful manner. This was unanswerable. No defense could have, as it would not do to enter suit against his own paper for libel. The name of the editor is Mr. Kuhn. He formerly edited a German paper in Lancaster, Pa.

Common Pleas Court.

Hon. Thomas Mellon presiding.

THURSDAY, June 21.—The jury in the case of D. B. Kirk & Co. vs. John O'Neal & Co., reported yesterday, rendered a verdict for plaintiffs in the sum of $300.

Phineas W. Jenks vs. Gibson A. Mundorf. This was an action to recover one hundred and eighty dollars for professional services. Verdict for defendant.

W. H. Taylor vs. Sebastian Row. The defendant, keeper of Gray's livery stable in Birmingham, sold a pair of horses to plaintiff, for $400 warranting them, as alleged, to be sound. On the part of the plaintiff it was alleged that the horses did not prove to be sound, and that notice was given to defendant of the fact, with the request to take them back. This was refused, whereupon suit was brought, the plaintiff claiming damages to the amount of $700. On trial.

Extensive Fire at Oleopolis.

Yesterday, about one o'clock, a fire broke out at the Pennsylvania Tubing Company dock, on the Allegheny river, at Oleopolis Venango county, Pa. The fire was occasioned, by a lamp being dropped into a bulk boat of oil by Mr. C. W. Porterfield the owner of the boat, who was severely burned ere he could escape from the burning craft. Mr. D. Bushnell, of this city, had three bulk boats, containing thirteen hundred barrels of oil, totally destroyed. There were four other loaded boats, together with the gauge tanks of the tubing company, three in number, burned. The boats were sent adrift, and by great exertions of the citizens the empty barges and buildings along the bank were saved. The insurance will amount to about three-fourths of the entire loss.

Mr. Bushnell's actual loss will amount to $5,000.

Oil.—The daily yield of petroleum from the wells at Burning-Springs is, as ascertained by actual measurements, as follows:

Otterson Well	.....	1,000 bbl
Sones' "	(new).....	800 "
Jones' "	(old).....	150 "
David Jones' Well	.....	100 "
Hofferman "	.....	100 "
Other wells	.....	300 "
Total	.....	3500

The Logan Oil Company, whose "strike" we chronicled some thirty days since, are preparing to put down another well. The yield of their first well averages 30 barrels daily. Their property is on Lick Run, a branch of Meyers' York.

Dis not Commit Suicide.—We were wailed on yesterday by Mr. Evan Jones of Birmingham, the father of Mrs. Harry Morcland, who we reported in several of the daily papers as having committed suicide in New Orleans, a short time since, owing to ill treatment received from her husband, and showing letters from the coroner and Mayor of New Orleans, stating that the deceased had died from the effects of an overdose of chloroform which she had taken as a narcotic, in order to still the pain, the consequence of a severe malady she was then suffering from. In justice to the memory of the dead we feel it our duty to make this correction.

Burglaries in Greenfield.—On Friday night last, the store of Nesbitt Moore & Co., in Greenfield, Washington county, was entered by some burglar or burglars, and robbed of about thirty dollars in money, and a quantity of boots and shoes. The thieves, effected an entrance by unlocking the door. On the same night the store of L. E. Smith & Son, in the same place, was also entered and robbed of about ten dollars in money and a lot of hats. An entrance was effected into this store by prying out the sash. Some of the hats were found on the wharf on saturday morning. No clue to the burglars has, as yet, been discovered.

Coroner's Inquest.—An inquest was held by Coroner Clawson yesterday morning on the body of George R. Jones, at his residence, in the Eighth ward. The evidence went to show that Mr. Jones had been subject to periodical spells of insanity for the last two years, for which he had been treated by the family physician, Dr. W. E. Hall is, who stated that the deceased was fully cognizant of his condition at times, and expressed a willingness to go to an asylum for treatment. A verdict was rendered in accordance with the facts. Mr. Jones' financial relations were perfectly sound, and not embarrassed whatever, as rumored.

Robbery.—The clothing establishment of J. K. Mincheart, near Brownsville, was entered by thieves on Monday night, and clothing to a considerable amount carried away. At the same time, and probably by the same parties, the Union Grocery, a few doors below Minchart's, was broken into, and some articles in the grocery line stolen. The safes in both establishments were untouched and no money or valuable papers lost by either party.

Mayor's Court.—Eight worthies presented themselves before his Honor yesterday morning, and underwent justice, which was accordingly meted out to them. Drunkenness and disorderly conduct was the highest grade of crime of which any were charged. Three paid fines of $5 each, and the other five were escorted to the county jail there to remain for periods ranging from one to twenty days.

Committed.—Adam Dressall was before Mayor Morrison yesterday, charged with vagrancy. He was furnished a ticket of admission to the hill for the space of thirty days.

Suits Against Southern Postmasters —The Rebbie Prize Money—The Bankrupt Bill.

NEW YORK, June 21.—*Herald* dispatches state that the Judiciary committee, with only two or three members attending, resolved lately to remodel the entire Judiciary system of the country, and make one less Associate Judge of the Supreme Court; but this action has since been reconsidered, and next Friday is set apart for a re-discussion of the matter, when the project is likely to be defeated.

The Postoffice Department is instituting suits against all postmasters in the insurrectionary States who stand indebted to the Government.

The bill for the relief of iron clad contractors still sleeps in the Committee of Claims, where it will no doubt remain the rest of the session.

The bounty money accruing to the officers and men of the following named vessels, viz: The Benton, Cairo, Carondelet, Lounsville, St. Louis, Monarch and Queen of the West, for the destruction of the enemy's vessels at Memphis in June, 1862, is now ready for payment at the Fourth Auditor's office.

No orders have been received to distribute and pay the prize money accruing to those engaged in the fight at Mobile, in August, 1864. This will be ready for payment in about two months from the present date. The total amount involved in the latter is $767,098 49.

The Steedman and Fullerton Commission left Memphis for Mississippi to-day. They will not visit Arkansas on this trip, but will conclude their investigations with Texas.

Senator Poland has concluded the examination of the Bankrupt bill and reported to the Senate Judiciary Committee. They will probably report it to the Senate and the further consideration of the subject be postponed until December next, on the ground that there is not sufficient time to consider it this session.

A *Times'* special says: Judge Thomas of the Virginia Circuit Court, who recently refused to admit the testimony of a negro in a case where colored men were not concerned, on the ground that he must be governed by the law of the State and not of the United States, was indicted by the United States Grand Jury, at the recent session of Judge Underwood's Court at Richmond. No subpœnas whatever have been taken to arrest Judge Thomas under the indictment.

Colonel Cooper, the President's Private secretary, has gone to New York City. It is said that there are several screws loose in New York among the Federal office holders.

The high protective tariff men are getting alarmed, lest their various interests will not be fully cared for by the Ways and Means Committee. There are several gentlemen here who have impressed the Committee very strongly against the expediency of adopting, at this time, a high protective tariff. The Committee are also in receipt of letters from prominent men in various sections of the country against such a course.

Latest from Havana.

NEW YORK, June 21.—The *Herald's* Havana correspondence says: The policy of the new administration is a regressive restrictive one, very obnoxious to the Cubans, more especially by contrast with the former generous treatment of General Dulce.

A violent hurricane visited Balsamo on the 9th.

Regla, a town opposite Havana, lost twenty-three houses by fire, on the evening of the 13th.

Advices from St. Thomas state that about 200 troops had left St. Thomas to join the foreign legion in Mexico.

By the late fire in Mayagnes, Porto Rico, over seventy buildings were destroyed.

Most of the English and American residents were abandoning Hayti on account of the disorder occasioned by the great fire at Port au Prince some weeks ago.

President Baez is on his last legs in St. Domingo. The revolutionists are pressing him so closely that it is supposed he will take to flight very soon.

Martinique suffered considerably from draught, and Guadaloupe had been fearfully decimated by the cholera.

American Citizen Imprisoned by the French in Mexico.

NEW YORK, June 21.—The *Herald* states that Daniel Green, an American citizen, residing in Matamoras, about fifty miles back on Mazatlan, has filed a statement with the American Consul at Mazatlan of certain outrages committed on him by the French. He was arrested in Mazatlan on the 20th of April last and kept in prison until May 1st, without accusation or hearing. He was then ordered to leave Mexico for California, and while under this injunction he entered his protest.

General Hovey's Arrival in Peru.

NEW YORK, June 21.—The *Herald's* Lima correspondence says: Gen. Hovey was given a grand reception by the Government, on the presentation of his credentials. The General, in a few words, expressed the cordial feeling entertained by the United States for Peru, her younger and more Southern sisters, and Colonel Prado, the Provisional Director, replied in high commendation of the great Republic, and the personal character of its accredited representative at his court.

Unitarian Conference.

BUFFALO, June 21.—The introductory services of the Western Unitarian Conference took place at Rev. Dr. Hosmer's church, last evening. Rev. M. Hopworth, of Boston, preached the opening sermon to-day. Reports will be presented of the Western Missions, and of the operations of the American Unitarian Association. This evening Rev. Dr. Collyer, of Chicago, will preach.

OFFICE UNITE STATES PRIZE CONCERT, } WIGGINS, BRADFORD & CO., Proprietors.

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent (and we trust satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the larger prizes.

The drawn numbers will be published in the Chicago daily papers for several days after the drawing is over each day, and will be furnished with a complete list of the drawn numbers.

In this way the public can see, which we hope will prove eminently satisfactory.

FINANCE AND TRADE.

THURSDAY, June 21, 1866.

Gold opened this morning at 153½, and gradually declined to 153¼. It is getting more plentiful, and besides there is little or no export demand. Government bonds are also a shade lower. There is still considerable inquiry for Five Twenties of former rates. Ten Forties, although relatively above their intrinsic value, in comparison with other securities, are attracting some attention from eastern capitalists. Seven Thirties are somewhat neglected, with more sellers than buyers. Compound Interest Notes are also offering pretty freely, principally by banks and bankers, who are anxious to realize; the high interest offered for loans, is an inducement to part with these notes, as they only command simple interest.

The following are the New York stock quotations to-day as received by Mr. P. R. Mertz: 1881's, 104½; Five Twenties, (old) 103; (new) 102¾; Ten Forties, 99¾; Seven Thirties, 102¾@103¾. Cleveland & Pittsburgh R. R., 89½; Pittsburgh, Fort Wayne & Chicago R. R., 97¾; Erie, 86¾.

The bull combination has evidently been broken, and the gold speculation for the time being is at an end. The foreign news will, it is true, be hereafter scanned with an anxious interest by the same parties that so heavily lost and won during the past few days, but it may be doubted whether, whatever be its character, gold will again witness such violent fluctuations. We understand that the importers will not pay the current advance on gold, preferring to leave their goods in bond until the gold speculation subsides, as they have a right to believe it soon must, in the absence of any special cause to the contrary, as the presence of increasing receipts of gold for sale from all parts of the country, and double the customary shipments to New York from San Francisco.

—The Cincinnati *Gazette* anticipates more ease in western money markets, when the wool crop comes forward:

The wool crop is now moving, and this will draw into the channels of trade a large amount of currency. Aside from wool, however, this section of the country has very little produce to ship to the Seaboard. Ohio has been for some time importing wheat, and hog products are, on an average, high here as at New York. Our dealers are finding a southern market for their stock, and while prices at New Orleans are maintained, but little attention will be paid to New York prices. But shipments south, so far as regards money, will have the same effect ultimately, as shipments to New York, and we shall undoubtedly have an easier money market as we progress through the summer months.

—The Philadelphia *Ledger* says:

Among the effects of the wild fluctuations in gold within the last two days, showing a rise and fall of two hundred, were two heavy failures yesterday of large Front street houses, engaged in groceries. They were kiting in gold, and are reported short in their contracts to the amount of $500,000 each. This should be a warning, and induce men in business to stick to their legitimate pursuits, but it will not.

New York Money and Stock Market.

NEW YORK, June 21.—The Gold market was firmer this evening and rallied to 150¾, but at the close the price dropped off to 150¾. The Government securities were quiet and firm this evening. The following were the closing figures: 1881's, 104½@104¾; Coupons of 1881, 110¾@110¾; Five-Twenties registered, 1862, 103@103¼; Five-Twenty Coupons of 1862, 104¼@104¾; Five-Twenty Coupons of 1864, 103¾@103¾; Five-Twenty Coupons of 1865, 102¾@102¾; Ten-Forties registered, 99¾@99¾; Ten-Forty Coupons, 99¾@99¾; New Certificates, 100¾@100¾; Seven-Thirty Notes, 102¾@102¾; June seven-Thirties, 102¾@102¾; July do, 102¾@102¾; June Compounds of 1864, 112¾@112¾; August do, 111¾@111¾; September do, 110¾@110¾; October do, 109¾@110¾; December do, 107¾@108¾; May do of 1865, 108¾@108¾; August do, 106¾@106¾; September do, 106¾@106¾; October do, 105¾@105¾.

At the second regular and last open boards, the stock market remained very dull generally. Water Power and Western Union were 1 lower; and Erie and Fort Wayne were a little stronger, but otherwise there was no change in quotations. The market for Petroleum and Mining Shares was generally steady this afternoon, with increased activity and an upward movement in New York. Petroleum Stocks—United States, 24; Bonehoff Run 20; Cherry Run 40; Bennehoff Run 60 20; Central 26; Shade River 32; do 55. Mining Stocks—Congress 120.

The following were the sales at the 4 o'clock board:—Ohio and Michigan Central 26¾; Erie 86¾; Reading 105¾; Catawissa 77; Cleveland and Pittsburgh 59; Fort Wayne 97¾; Illinois Central 120; Chicago and Northwestern 25¾; Chicago and Northwestern preferred 58½; Pittsburg, Fort Wayne and Chicago 97¾.

The *Post's* Money Article says: The Loan market is easy, with very little inquiry. The rate for loans is 6@7 per cent. Currency paper is offering, and the current rate for commercial bills, for good, is 9@9½ per cent. The Stock market is dull, and the little activity displayed yesterday was in the special Government securities not been renewed. Governments are firm and without much change, the demand continuing good at full prices. After the Board N. York Central was quoted at 99; Erie, 86¾; Cleveland and Pittsburgh, 89¼; North Western, 59¾; Rock Island, 107.

New York Produce Market.

NEW YORK, June 21.—Cotton drooping, at 38@40c for middling uplands. Flour less active and 10@25c lower at $7.60@8.00; Extra State at $8.50@9.10; extra Round Hoop Ohio, $10.15@14.00 for trade brands, closing heavy. Whisky dull, heavy and nominal at 2,30. Wheat dull and nominally 2@3c lower; white western is quoted at $3. Rye quiet and firmer. Cornquiet and firm, 90@94 for unsound new mixed western; 96@97 for sound, and 97 for old mixed western in store. Oats dull, le lower; 57@60 for new western, the latter for Wisconsin. Coffee dull. Sugar steady. Sales of 1,000 hhds Muscovado Molasses 64@65c. Petroleum dull at 25½@28c for Crude, and 41@42c for Refined in bond. New York Iron Market.

NEW YORK, June 20.—The large advance in gold has tended to considerably enhance the views of holders of Scotch pig, but buyers have responded cautiously, and though the market is firm, the business is light, especially as the high points made for gold saturday and Monday were not sustained yesterday. American is scarce and very firm, being sold ahead, and now offered very sparingly; we notice 200 tons No. 1, at $41, 100 tons delivery, at $40; 100 do sherrie and 100 do Glengarnock Scotch, $48.50 do Eglinton, $46.50 currency; and 100 do same brand, $31 gold. We heard of no sales of Lake Superior iron, from which we have again advanced their rates $5 per ton on all descriptions. The sale of street rails noticed in our last, was 60 tons, not 600, as printed.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, } WEDNESDAY, June 21, 1866. }

With the decline in gold, the little excitement that characterized the produce markets some days since, is gradually subsiding, and while there is nevertheless a fair volume of business in the aggregate, it is almost entirely of a local and unimportant character.

GROCERIES—The market is less excited, but prices are pretty well maintained. Brown sugars are firm with regular sales at 13 to 15 for fair Cuba to choice Porto Rico. PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, } THURSDAY, June 21, 1866. }

Yesterday the sales were unusually large, reaching several thousand barrels, while today the transactions all told did not reach that many hundreds. The demand seems to have somewhat generally ceased, and shippers are not crowded very much with orders. We continue to quote at 15 to 15½, bbls returned, and in bulk and 15 to 18½, bbls included—delivered 10 bbls at 12½.

REFINED—There was considerable inquiry for bonded oil to-day both for present and future delivery, and while the market may be termed pretty active, there is no disguising the fact that prices are gradually declining. RIVER NEWS.

The river rose steadily during Wednesday night and yesterday, but last evening it was apparently at a stand, with five feet ten inches in the channel by the marks. A telegram from Oil City during yesterday forenoon reported the Allegheny falling slowly, with thirty inches in the channel. The weather continues clear and warm.

There has not been a single transient arrival or departure since our last report. The Leni Leoti, from Parkersburg and the Julia, from Zanesville, are due here this morning, as are also the Elector and Gallatin, from Geneva and Brownsville.

Business, we regret to state, continues very dull at the landing. A few days since steamboating were waiting very patiently for water, and now they have a good stage of water for the season, and but very little freight.

The Bayard arrived and cleared for Parkersburg, as did also the Chieftan and Fayette for Brownsville. The Elector, Capt. Phillips, and the Gallatin, Capt. Cadwallader, are due regular packets for Brownsville this evening, leaving promptly at five o'clock.

The Wauandia, Capt. Thomas Shuman, is filling up steadily for St. Louis, and will be ready to take her departure this evening or tomorrow, and passengers and shippers should call on him in time. The R. K. Gray, Capt. Anderson's new steamer, is loading for the Upper Mississippi, and will soon be ready to leave.

The Kaltus No. 2 Capt. Shedden's new boat is about finished, and is now at the main landing ready to receive freight for New Orleans and intermediate ports. She will soon be ready to take her departure.

The Revenue arrived from Portsmouth last evening, with a very fair trip, including a considerable amount of flour. She returns again to-day, and will probably get off about noon.

The Ida Orilda and Ida Rees No. 2 may be expected in from Oil City to-day or to-night. There were no departures for that point last evening, and navigation, so far as steamers is concerned, may virtually be considered suspended.

We clip the following river items from the Cincinnati *Commercial*, of Wednesday:

Yesterday morning a gang of some fifteen or twenty colored firemen and deckhands, headed by a couple of their number with a drum and fife, paraded along the wharf from the upper landing to the foot of Vine street. They were in search, we presume, of a apparently "backed" by white laborers and deck hands. They halted at the Louisville packets informing their colored brethren that they were not paid enough wages, and must strike for $45 per month. The price now paid is from $20 to $35 per month. They persuaded the colored laborers from working on the St. Charles United States, and General Buell, until the arrival of several policeman, when they soon dispersed. At present trade is very dull along the levee, with very little demand for labor of any kind, and a poor time to strike. We observed one fact, which is, that the police sufficient when in search of labor to prevent any serious strike at present. Several threats were made, but no violence executed. The lady Franklin yesterday relighted the gas lamps for Pittsburgh on the Camelia. One item of the Sherman's cargo last night, for Wheeling, was 400 sacks of wheat. Mr. Harry Rose requests us to announce that if the man person who took his watch on 'Change last Monday, will call at his office, on the Public Landing, he will give him the key to wind it up with, and "ask no questions."

The St. Louis *Democrat*, of Tuesday, says:

Capt. C. B. Israel, whose death in Pennsylvania we noticed yesterday, was a brother-in-of Capt. Ben. F. Hutchinson, and Jos. Lloyd of this city. He was a native of Pittsburgh, and many years since was employed as clerk, we believe, on the Persia and Susquehanna.

The W. J. Lewis, which arrived on Sunday evening from Fort Benton, brought about $250,000 in gold dust.

THE NEW Spring and Summer Medicine.

FLUID EXTRACT SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co.,

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Stale, scrofulous women and children improve rapidly under its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form in which it is given. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. In White-Swellings, Hip-Joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it, is an

Alterative, or Blood Purifier,

has ever before been placed within the reach of invalids. Indeed, it is an entirely NEW and SCIENTIFIC combination, in no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular, which can be had at the store of any and all first-class Druggists.
